

Sweet reconciliation

Couplet: Can you hear the train a speeding
Like a bullet for your soul
Million miles on dusty road
Endless nights waiting for your love

Couplet: I'm gonna hold 'til the morning
Love you all night long
Can you hear my heart a pounding
For your love, for your love

Refrain: We survived the distance, we survived the time
Even stormy conversations
It doesn't mean we don't belong
Sweet reconciliation

Couplet: I'm gonna wrap my lips around you
Squeeze you like a child
A kiss beneath the moon lit sky
You're the lady of my life

Couplet: I'm gonna take you in my waiting arms
Dance the night away
Fight against the jealous dawn
You're the lady of my life

Refrain: We survived the distance, we survived the time
Even stormy conversations
It doesn't mean we don't belong
Sweet reconciliation
