

Cry love into the night

Coup. I'm the wind for you to listen the star that shines for you  
The warmth of summer spirit your life to write the truth  
I'm nothing less than forever as simple as a touch  
A gift for all to cherish the song we need so much

A word that's sometimes never heard a mystery to the clue  
Some spend their whole life searching it's love that calls to you  
As calm as the break of day as simple as the dew  
A helpful hand of time of need tha's what I want from you

Cry love into the night  
Cry love and hold on tight

Coup. Open up your arms embrace love with a heart  
Let it caresse you with a spark  
I'm nothing less than forever as simple as a touch  
A gift for all to cherish the song we need so much

A word that's sometimes never heard a mystery to the clue  
Some spend their whole life searching it's love that calls to you  
As calm as the break of day as simple as the dew  
A helpful hand of time of need tha's what I want from you

Cry love into the night  
Cry love and hold on tight

Ref. Drink freely of the waters cast not the infamous stone  
Let down your shields of armour and you'll no longer stand alone  
Give with hunger for the knowing receive the tender grace  
Cry love into the night
