

## My hometown

Couplet: I've been wandering around, filled with pictures and sounds  
I remember the church by the playground  
With a swing and a child with her mom by her side  
Tell me do you remember them too

Refrain: My hometown was alive, played outside till dark  
There was always a reason to smile  
Now these pictures and sounds, they will always belong  
Even though you're not there in my hometown

Couplet: There was Jack's corner store, old fashioned candies and more  
Knew all the kids by their first name  
Now as fall turned to snow, there were lights in the windows  
We just couldn't wait for that morning

Refrain: My hometown was alive, played outside till dark  
There was always a reason to smile  
Now these pictures and sounds, they will always belong  
Even though you're not there in my hometown

Bridge: So wherever you are singing nursery rimes  
Do you remember what we used to share  
Now these pictures and sounds, they will always belong  
Even though you're not there in my hometown

Couplet: I've been wandering around, filled with pictures and sounds  
I remember the church by the playground  
Now these pictures and sounds, they will always belong  
Even though you're not there in my hometown
